Upon the proposition made by the hon. Schout what to do in case the English should happen to approach our village of Wildwyck, it is resolved that at the discharge of the cannon all the citizens shall repair to the head watch for the purpose of there receiving further orders, and that in the mean time the hon. schout, besides the hon. court, shall try to parley with said English outside the gate. In the mean time the burgher officers are ordered to find out what powder and shot there is with the burghers, because it is impossible to know how the savages will behave in this emergency. Thus given by Schout and Commissaries at Wildwyck on the day & in the year mentioned above.

Ordinary session on Tuesday, October 7, 1664.

Present Willem Beeckman, Schout.
